Objective:

To deepen my expertise as a Web and Mobile Developer by utilizing modern technologies and frameworks, while contributing to a company that values work-life balance, long-term growth, and meaningful impact.

Education:

New Era University   Quezon City, Philippines
- Bachelor of Science in Computer Science   *2022 - Current*
- Dean's Lister

San Francisco High School   Quezon City, Philippines
- Science, Technology, Engineering, Mathematics Strand   *2020 - 2022*
- With Academic Honors

Projects:

NEU-OJT-APP
- Developed a cross-platform application for NEU students undergoing On-the-Job Training (OJT) in a 5-member team, enabling them to manage requirements and track logged training hours through a React Native (Expo, TypeScript) frontend and Firebase backend with Auth, and Storage.

EventEra: Events Management Hub
- Built a centralized events management platform using React and Supabase in a 5-member scrum team, streamlining scheduling, registration, and coordination tasks to improve event organization and participant engagement.

NEUnited: Student Organization Management Website
- Created a web-based system as a developer in a 5-member scrum team for managing student organizations with React, Supabase, featuring membership tracking, activity logging, and resource management to enhance collaboration and transparency.

Match Point Racket Club Reservation Website - *https://matchpointracketclub.com/*
- Created a full-stack web-based reservation system as a solo developer to manage pickleball court bookings. Developed the frontend with React and backend services with Supabase for database management and authentication. Integrated the Google Sheets API for syncing reservations with administrative records and the Resend API for automated email confirmations.

Converso: LMS SaaS App - *https://saas-app-one-indol.vercel.app/*
- Created a Learning Management System (LMS) SaaS platform, enabling real-time teaching and interactive learning experiences. Built with Next.js and Supabase, featuring user authentication, subscription management, and secure payments powered by Stripe. Integrated Vapi to deliver live voice-enabled sessions and an AI-powered vocal agent to enhance engagement. Designed and deployed the platform with a focus on seamless user experience, scalability, and modern SaaS best practices.

Certifications

Introduction to Data Science   CISCO Networking Academy (*2025*)

Supervised Machine Learning   Coursera (*2025*)

Data Science Tools   Cognitive Class IBM (*2025*)

SQL and Relational Databases 101   Cognitive Class IBM (*2023*)

Skills

Technologies:
- Tableau
- Excel
- PowerBI

Languages:
- TypeScript
- JavaScript
- Java
- Python

Frameworks:
- NextJS
- React
- React-Native
- Bootstrap
- Tailwind CSS

Technical Skills:
- Data Science
- Machine Learning

Interests:
- Reading fiction
- Watching movies
- Action RPGs & exploration-driven games
